## **DETAILED ACTION**

### ***Response to Amendment***

The amendment filed on April 29, 2008 has been considered but is ineffective to place the application in condition for allowance and an action on the merits follows.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims fail to positively recite critical mechanical cooperation between to elements. For example with regard to claim 25, there is no mechanical cooperation between the driver and strap guide tracks, are these elements operatively connected or are they separate? Clarification is required.

Similarly claim 31 is merely a listing of elements with no positive recitation of mechanical cooperation between the strap guide tracks, narrow head strap drivers or fasteners. Are these elements mechanically coupled/connected if so, how? Clarification is required to facilitate a clear understanding of the claimed invention. Examiner notes, Applicants attempt to draft a broad claim results in ambiguity of the claimed invention therefore inhibits a clear understanding of the claimed invention. For example with regard to claim 31, Applicants failure

to positively recite mechanical structure between the elements leads to several possible embodiments, all of which have not been defined within the original disclosure.

Examiner notes the claimed invention as recited in claim 31 encompasses the following embodiments:

- strap guide tracks operatively connected to strap drivers
- strap guide tracks operatively connected to strap fasteners
- Strap guide tracks, operatively connected to strap drivers and strap fasteners
- strap drivers operatively connected/coupled to strap fasteners but separate from strap guide tracks

Applicant is required to review all of the claims for clarity and definiteness concerns.

#### ***Allowable Subject Matter***

Claims 1-4, 6, 7, 9, 16, 17 and 20-22 are allowed.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 1-4, 6, 7, 9, 16, 17 and 20-22 are deemed persuasive. Applicant's remarks with regard to claims 25-36 have been considered but are moot in view of the rejection noted above.

Examiner notes claims 25-36 were not presented for examination previously.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
